PROFESSIONAL SUMMARY

Middle+ FullStack Developer with 4+ years of commercial experience building modern web applications and digital products. Skilled in frontend and backend development using React, Next.js, Vue, Nuxt, TypeScript, Node.js, NestJS, PHP, and Laravel. Experienced in designing scalable architectures, developing REST APIs, integrating databases, and delivering high-quality solutions throughout the full development lifecycle. Strong understanding of performance optimization, maintainable code, and collaborative development practices, with experience working in fast-paced team environments.
